RETENTION OF RECORDS FOR ACCURACY & INTEGRITY

DEFINITIONS

Learner results

This is a record of the final assessment outcome for each unit of competency. It must include the code and title of the unit of competency plus the date achieved.

Qualifications / Statements of Attainment issued

This is a record of qualifications and or statements of attainment issued to learners. The documents must meet the requirements of the Australian Qualifications Framework (AQF) Implementation Handbook and the endorsed SHB Hairdressing and Beauty Services Training Packages and/or accredited courses within the scope of the registered training organisation's registration. Enough information to reproduce the qualifications/statements of attainment, including the date of issue, is required. A list of units of competency achieved by each individual learner must be retained as part of this information.

Completed assessment items

This refers to the actual piece of work completed by the learner, or evidence of that work and includes evidence collected for an RPL process. An assessor's completed marking guide/criteria/observation checklist for each learner may be sufficient where it is not possible to retain the learner's actual work. However; the retained evidence must have enough detail to demonstrate the assessor's judgement of the learner's performance against the standard required. Clear benchmark criteria (e.g. model answers) against which the learner's performance has been judged must be included in the evidence. The assessor's checklist must include a summary of feedback given to the learner, the name of the assessor and the date of the assessment.

Assessment instruments

These are documents that clearly demonstrate what has been assessed, how this occurred and the linkage to the competency standards in the training product (SHB Hairdressing and Beauty Services Training Package/accredited course). The assessment instrument must be supported by objective criteria on which the assessor will base the assessment decision, such as benchmark criteria (e.g. model answers) which list the key points. Assessment instruments may address a cluster of competencies as applicable for holistic assessment.

STORAGE REQUIREMENTS

All records will be kept by AIBA securely and confidential information will be safeguarded. Records will be kept to avoid fire, flood, termites or any other pests and be available for perusal by departmental auditors at a scheduled audit. ^[SEP]A backup of

all records will be kept (including hard copy records if these are the only records). If only electronic records are kept, the mechanism by which the material can be retrieved must be retained.

RETENTION OF RECORDS

Please see the Retention of Records Table on the following below:

ITEM DESCRIPTION PERIOD & AMOUNT TO BE RETAINED

Learner Results

Records may be electronic or hard copy and should show, for each unit of competency, the result (usually a notation of competent/not yet competent), and the date of result.

Qualifications/ Statements of Attainment Issued

A record of qualifications/statements of attainment issued to each individual learner must be retained. This may be either electronic or hard copy, and must contain enough information to reproduce the qualification/statement of attainment if required. A record of units of competency achieved by each individual learner must also be retained.

Assessment Instruments/tool/procedures and assessors' marking guides/criteria/observation checklist

A master copy of each version of all assessment tools. This includes criteria by which an assessor would base assessment decisions, such as model answers which list the key points and/or other benchmark criteria. The assessment instruments will be reviewed by the audit team, including industry advisers where appropriate.

If a model is used as part of an assessment, then either the model or a detailed description of its critical components should be retained.

RETENTION GUIDE

Keep 100% for 30 years Standards for RTO's 2015 (Schedule 5)

Keep 100% for 30 years.

Keep a master copy of all versions of assessment instruments/tools/procedures used for 7 years following the last date of use.

Master copies may be retained electronically or in hard copy. However, sufficient information must be retained to confirm which version of each assessment tool was used on a given date.

Completed assessment items

The RTO will need to keep sufficient evidence of how the assessment was made to justify the decision if there is an appeal. This includes evidence collected for RPL purposes.

If possible, the completed assessment items must be retained until the expiry of the RTOs appeal period. If it is impossible to keep all completed assessment items, the assessor's observation checklists or similar documents must be retained, along with evidence (e.g. photographic or video evidence) of the completed work.

After the appeal period*

The RTO will need to keep sufficient evidence of how the assessment was made to justify the decision. This includes evidence collected for RPL purposes.^[1]^[SEP] If possible, the completed assessment items must be retained. If it is impossible to keep all completed assessment items, the assessor's observation checklists or similar documents must be retained, along with evidence (e.g. photographic or video evidence) of the completed work.

The retained evidence must have enough detail to demonstrate the assessor's judgement of the learner's performance against the standard required.

Clear benchmark criteria against which the learner's performance was measured must be included in the evidence. The assessment tool must include a summary of feedback given to the learner, the name of the assessor and the date of the assessment. If no checklist is used, the complete assessment item itself must be retained.

100% of records must be retained until the expiration of the RTOs appeal period.

After the appeal period*

For each unit of competency delivered by the RTO, keep all learner assessment evidence for each selected learner from each cohort** for a minimum of 6 months after confirmation of the final result (i.e. expiry of the appeal period) for a sample of learners as follows:

Every learner – when cohort comprises 1 to 10 learners

10% or 10 (whichever is greater) when cohort comprises over 10 learners. The sample of learner records retained should be representative of the standard of the RTOs records for that cohort.

*NOTE: Additional retention periods and conditions may be imposed by contractual or regulatory requirements.
